

Comparing Tests

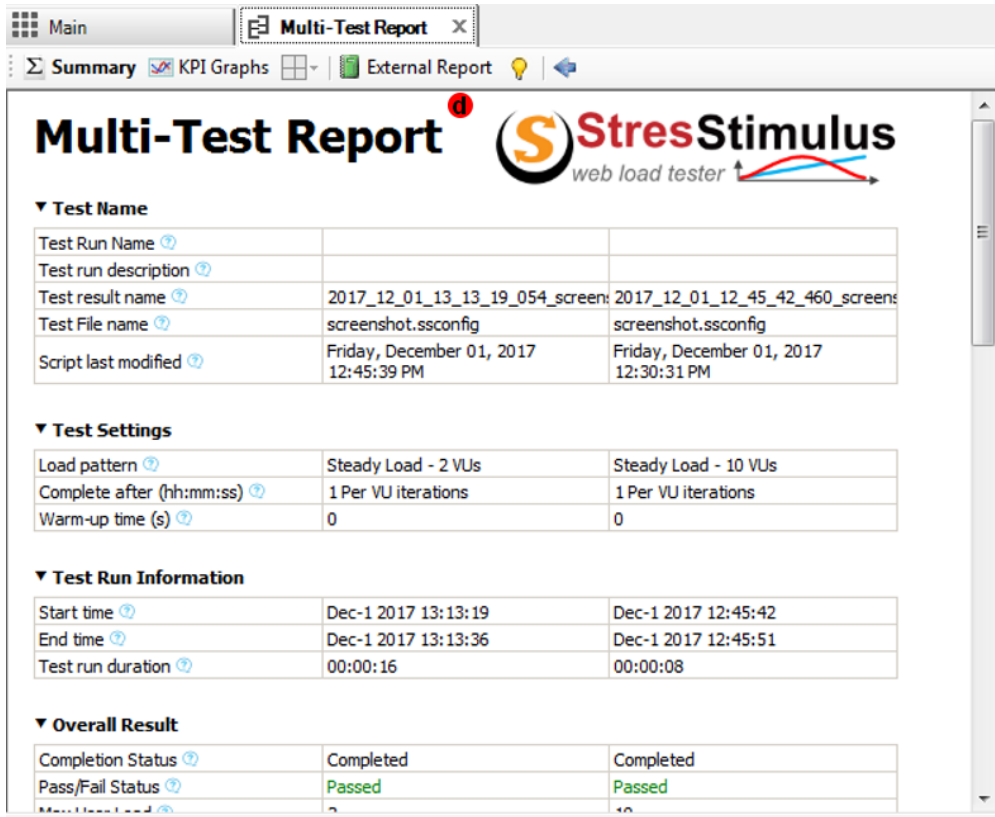

Several test results can be compared side-by-side on a Multi-Test report tab. To create the Multi-Test report, follow these steps

1. From the **Analyze Results** section (a), select the results to compare by checking corresponding boxes (b).

2. Clicking **Compare Tests**(c) on the toolbar.

3. A new **Multi-Test Report** tab (d) will display the report

4. To save as an external report, click the External Report. For more on external reports, click [here](#).

The multi-test report displays several views described in the following sections.

[Test Comparison Summary View](#)

[KPI Graph Comparison View](#)
